

OMANEE

Finance & Investment

# *Message from Omanee*

## **The dream for Asia**

*An Asia without borders is a place in which there are no barriers, no demarcation lines, language or cultural differences, or any limits to trading or doing business. The most important barrier to erase is the difference in currencies.*

*Asia has the largest land mass in the world and with population of 4.5 billion it accounts for two-thirds of the global population. Asia is known for the richness, diversity and antiquity of its cultures.*

*The 19th century was the birth of the industrial revolution in the United Kingdom and the era of the European powers. The 21st century, the time of the present, has seen a seismic shift of global influence and power from the West to the East. And this is only going to continue.*

## ***The Internet and the potential of Asia***

*The Internet is one of the greatest inventions of the human race. It's today's equivalent of the 19<sup>th</sup> century's Industrial Revolution. It's affected every aspect of human society and achieved globalization leading to what is called 'Industrial Revolution 3.0 and 4.0'. The creation of blockchain has even further revolutionized the advancement in technology, especially for everyday-life applications. Blockchain is leading a world-changing revolution like the Internet did.*

*The Internet of Things (IoT) links everything we do in our lives using the Internet. It combines distributed backup solutions - decentralized (Blockchain) with all digital devices inter-connected to any location, any movement, any activity or any change in our surroundings.*

*The world is forming new cities - smart cities, ones to equip us for our future living.*

*Asian nations are at the forefront of this movement. They need to address the very real threats to our continued existence from climate change, global warming, natural resources such as clean water, food, flora & fauna and depleting fossil fuels which we depend on for our energy needs.*

*The solution: smart / eco-friendly city projects.*

## ***The Internet and the potential of Asia (continued)***

*The rise of Asia over the last 50 - 70 years and into the 21st century is the foundation and motivation for the 'Asia without border strategy' driven by OMANEE. This strategy is to bring Asian countries the very best in knowledge and experience.*

*The dream is not a far-fetched one given OMANEE's ability to take advantage of the fruits of the digital technology revolution to create applications connecting digital communities and smart users.*

*OMANEE takes on challenges to grow. Globalizing is the only route for OMANEE's development, striving to become a global conglomerate. That's the reason why we'll create OmaCities in Singapore, Hongkong, Dubai, Seoul, Tokyo, Shanghai, Mumbai or any other urban areas in the Asia - Pacific region.*

*OmaCity is a wise choice for your ideal living environment where you can connect and interact as a true 4.0 citizen of Asia, regardless of which country or city you reside.*

*The Internet of Things and Smart City forms the OmaCity; where the operation's run with a sharing formation - Omarea (Sharing Property). In a near future, when you're a part of OmaCity, whichever country you are from, you will be able to connect to this global network and make what now seems impossible, possible.*

## ***Working towards an Asian-covered corporation***

*Asia is a dynamic and appealing area for both Asian and non-Asian investors. The potential for great growth potential attracts many enterprises to invest in this region. This raises the demand for money exchanges and banking services. OMANEE is well equipped for business dealings to merge or trade with firms of technology, markets, and services in its quest to globalizing Asia in 2020.*

*In its strategy, OMANEE will expand in its technology projects, to create breakthroughs in changing people's method of payment and trading so that such exchanges will be cashless ones; these new movements will, in turn, boost Omanee's competitiveness, assisting in its globalization and conquering of the Asian market, and ultimately the global one.*

**OMANEE - MAKE THE IMPOSSIBLE POSSIBLE**

# VISIONS – MISSIONS - VALUES

## VISIONS

*“The future belongs to Asia.  
An Asia without borders”*

## MISSIONS

*“To be a trustworthy partner for customers and a reputable leading firm in Asia for Finance  
Technology and Management ”*

## VALUE

*“Technology is a connection platform that creates new value for customers.  
Developing Citizens and Smart Cities”*

# VALUE

## ❖ **We do the right thing**

We act with integrity and put our clients first and equal.

## ❖ **We think for the long term**

We engage in thoughtful decision making and believe that investment excellence should drive our decisions.

## ❖ **We work together to achieve common goals**

We show respect and humility towards each other and our clients. We believe in creating a supportive work environment that fosters teamwork, collegiality, and effective communication.

## ❖ **We strive for excellence**

We make the extra effort, practice continuous improvement, and stay flexible to adapt to changing circumstances.

## ❖ **We are committed to employees**

We foster an environment that provides flexibility and opportunity for study, growth and sustainability.

# OBJECTIVES

- ❖ To provide investors with solutions to achieve their long-term financial goals.
- ❖ For OMANEE to expand and upgrade its foundation in the Asia-Pacific market, to offer valuable opportunities and knowledge foundation to investors.
- ❖ To bring values of finance, technology and blockchain applications to the community, the service segment and enterprises.
- ❖ Increase the value of investment through the Omanee's investing strategy built on its core values and business principles
- ❖ Omanee offers its employees a challenging working environment enabling experiences and skills to self-build a person's career path.
- ❖ Omanee makes wise, strategic decisions to benefit its clients through investment in the smartest and most efficient way.
- ❖ The right strategies in place for clients and communities that encourage an increase in wealth beyond an ordinary financial plan.

# THE FUTURE LIES IN ASIA

## ASIA PACIFIC COUNTRIES

- Becoming the leaders in the global economy
- Account for over 60 percent of the global population and land area.
- Maintaining a high rate of GDP growth, abundant financial resources and growing regional economic co-operation.
- Maintaining stable economic growth amidst a rapid change in population mix.

## ASIA WITHOUT BORDERS

- Borderless currency and payment.
- Global, digital orientated citizens and smart cities.
- 'Flat' world: despite the differences in nationalities, languages, cultures, and religions, the world is connected thanks to technology advances like AI, Big Data, Blockchain, IoT, etc.

# STRUCTURE

TARGET MARKET: ASIA - PACIFIC

THE TREND: **SHARED ECONOMY - TECHNOLOGY APPLICATION**

# NEENOTE

# NEENOTE

## Cashless Payment

Crypto currencies are becoming a force to be reckoned with in the financial market  
**NEENOTE** - the new platform for payment and trading for digital assets - crypto assets - global digital banks.

Issuing **NEE** - a cryptocurrency

- **NEE** is a coin used in the **OMANEE** ecosystem
- **NEE** is traded on **NEEX** - Cryptocurrency exchange.
- **NEE** is applied in the financial ecosystem **NEEBANK** - the digital bank
- **NEE** is the platform for the issuance of new tokens on **NEECHAIN** - an ecosystem of blockchain

**TOTAL: 10,973,936,895 NEE**

- **Algorithm: X11** - coin mining (POS, POW) and smart contracts

**Trading:** the environment for currency exchange and transferring in a cashless foundation of **NEEBANK**

# NECTEK

Leading – Connection the world

- ❖ A research and development center for applied technology in Finance & Investment
- ❖ Strengths: Big Data, Internet of Thing, Blockchain, AI, AR, VR
- ❖ Blockchain One Touch (BOT): a payment solution with blockchain foundation
- ❖ Mobile applications and KYC

**Develop Teams:** INDIA, INDONESIA, VIETNAM, BANGLADESH, PHILIPPINE  
**Data Centre:** DUBAI & SINGAPORE

# NEEDIA

Creative for tomorrow

The revolutionary achievements of science & technology in Information Technology, broadcasting, television and Internet create a global booming era of information. Multimedia is a hot trend.

**NEEDIA develops its own communication channels:**

- ✓ **NplusTV:** *a channel specialising in Asian Finance*
- ✓ **Nplus Production (Production House):** *providing advertising - designing services*

**Develop Team:** INDIA, PHILIPPINE, SINGAPORE, MALAYSIA, THAILAND, VIETNAM

**Office:** DUBAI, INDIA, SINGAPORE, PHILIPPINE, KOREA, HONGKONG,...

## Ecosystem Blockchain

***“Just like the case of Internet, Blockchain changes the world of the 21st century”***

Blockchain ecosystem includes applications for third-party businesses and partners who want to develop their products using Blockchain.

**The foundation of NEECHAIN:**

- *Create Big Data for digital asset verification.*
- *Using blockchain to simplify the process for businesses*
- *Securing and keeping personal information confidentially shared (KYC global customers)*

**SMART CONTRACT:**

partners can issue token in a simple, user-friendly, secured, safe and exact way.

# NEEX

Trading, Exchanging Digital Currencies

**NEEX** - the first crypto asset exchange in the world for digital assets such as: crypto assets, stocks, shares, crypto currencies and Token.

- Issue digital share (Token )
- Support in selling IEO to raise fund for startups
- Exchange and trade currencies and crypto currencies, digital assets and vice versa
- Convenient and smart transactions
- High-level of safety and confidentiality
- Flexible trading platform
- A platform for free-of-charge international money transfer - remittance services

**NEEX** - increase the level of monetary freedom

# NEEBANK

Digital Bank of the world

Digital banking solution with Blockchain and shared economy model  
Realizing the vision of a '**Cashless world**' payment model

- **Products:** *Trading, exchange and deposit various types of tokens , cryptocurrencies, national currencies, and digital assets*
  - **Solution:** *being operational every time, every where, Speed - Simplicity - Confidentiality - Safety - Precision*
  - **Advantages:** *simply connected over the Internet, easy to operate and more convenient*
  - **Benefits:** *appealing features, competitive interest rates in comparison with conventional banks.*
- With **NEEBANK** - the new digital bank, the banking transactions become optimal, more convenient and beneficial to its users and the society in general.

**Objectives:** an online-only digital bank, no offline offices  
**Agent:** global partners play the roles of ATMs and mobile branches

## Asian venture capital fund

With an ecosystem of startups, **Oma Capital** does business in most Asian countries with a vast community of consumers.

**Oma Capital** is a funding resource for the development of startups in Technology, Finance and Community Support.

**Oma Capital** is creating a business - startup forum for Asia.

**An ecosystem for startups:** together with **NEETEK, NEEDIA, Oma Capital** is creating an ideal environment with appealing capital resources for startups in Asia.

# OMAINVEST

## Development Investment

**Oma Investment** is a Mutual Fund in a multitude of fields in the Asia Pacific region.  
**Oma Investment** is the prioritized segment of **OMANEE Corporation**, an enterprise with abundant capital investing in potential businesses: Real Estates, Hotel & Resorts, Casino, Leasing buildings, etc.

Asia is one of the most lucrative markets for retails, e-commerce and F&B which are also **Oma Capital's** focus of investing, acquisition and franchising.

**Objective: NEEX** - the crypto asset exchange - combined with **Oma Investment** will become one of the biggest financial markets in the region in 3 - 5 years.

**OMANEE Corporation expects to grow.**

**INVESTMENT AND DEVELOPMENT**

OMACITY

## Smart City

4.0 Smart Cities is an technology integrated model with all buildings and activities monitored and operated using technology. Technology creates an environment with smart services - smart management - smart living, connecting people easily.

**OMA CITY** uses the IoT - Internet of Things, together with software solutions, UI - User Identity and telecommunications to connect and manage the whole city.

**OMA CITY's** mission is to optimize the city's functions, boost economic growth, and improve its citizens' living standard through the use of smart tech and database analysis.

**OMA CITY** includes three factors: effective infrastructure, stable development and friendly environment.

=> Applying information technology and telecommunication ensures the citizens' living quality, progress and conveniences.

**OMACITY** - A technology and affiliate city throughout Asia  
**Living - Working - Development** environment for citizens in the  
period of 2030-2050

OMANITY

## Global Digital Community

The global digital community

**OMA NITY** is a project developing the network among the Asia-Pacific community.

- A citizen becomes digitized using ECOTOUCH, a one-touch trading application.
- ECOGO, a one-touch ecosystem.
- ECOSHARE, a sharing ecosystem.
- The global iMerchant community uses applications with Blockchain foundation.

=> ***It boosts the co-operation among a community and the constant expansion to connect individual economies in a global value chain, which benefits contributing parties and the stable growth of Asia - Pacific region.***

**OMA NITY – Connecting – Networking - Developing**

A global one-touch trading application

- An integrating app with different features which allow individuals and firms to perform different activities at the same time via digital gadgets (Smartphone, GPS, Face, Security, Card, Code, etc..)
- Working on BOT - Blockchain One Touch foundation: transactions are safe, transparent and secured
- Assist users in storing and sharing personal information safely and quickly with absolute confidentiality and transparency

**EcoTouch benefits its users with many features such as:**

- **EcoID:** Incorporated personal information in a singular ID - the only one being used and shared in Blockchain; the profile will be verified at the time of registry.
- **KYC** – Global user identity
- **Ecopay:** The e-wallet to register Eco, the internal points of Ecoworld, and currently available cryptocurrencies such as BTC, ETH, USDT. At the same time, Ecoworld plans to cooperate with 3rd parties (banks) to enable deposit / withdrawing transactions via blockchain wallet.
- Account security using Blockchain
- In connection with social media, enterprises, firms, e-commerce, banks, trading, and social networks
- **EcoShare:** a global network of cross-selling allows the community to sell, purchase and pay for everything with appealing refund - point accumulation system
- Incorporated services such as: shopping, dining, airline tickets, tours, cinema tickets, topup, etc.

## One-touch ecosystem

- **EcoGo** is an application developed on blockchain platform (**NEECHAIN**)
- Businesses can apply it to the process of managing, organizing, and optimizing business processes; with **EcoGo**, businesses can also exchange services

### **EcoGo appeals to clients with many features such as**

- ❖ Automated ticketing and check-in system (Go Ticket)
- ❖ Patients' medical record management (Go Hospital)
- ❖ School (Go School)
- ❖ Staff management (Go Work)
- ❖ Parking lots, automated parking management
- ❖ Building - City: Check-in and out
- ❖ Movie theater: Ticketing and check-in

- ❖ Businesses: Customer management
- ❖ Shopping: Sales - Deal
- ❖ Administration: Managing citizen IDs instead of personal IDs
- ❖ Transportation: One Tap automatic payment system for vehicles
- ❖ Smart City (OMA City)

A foundation for digital share issuing for businesses all over the world

## OMA BIZ – AN ECOSYSTEM FOR BUSINESSES

This is a foundation model for the businesses to issue their share digitally. It supports small-scale firms with low capital. **Oma Biz** assists businesses in evaluating a business' financial health, getting listed on the stock exchange and issue digital shares to raise fund.

**Oma Biz** develops and exchanges using Blockchain foundation (**NEECHAIN**) and is supported by **NEEX**, an exchange, with its technology ecosystem - **NEENOTE**; it's easy for businesses to issue Digital Shares and raise fund globally with no limits.

### THE BENEFITS OF “DIGITAL SHARES” MODEL

- ❖ It's easy for enterprises to issue shares and raise fund (in comparison with complicating procedure of listing on a stock market).
- ❖ The model allows global fund-raising with a wide spread of investors: individuals, firms, communities, etc..
- ❖ There's also the support of **NEEBANK** with which there's no taxation, laws, financial, currency barriers.
- ❖ The issued shares are traded in a fast and flexible way on **NEEX**, an exchange; and these shares can also be used in trading on the ecosystems of **ECOTOUCH & ECOGO**.

## Share Property 4.0

**OMAREA (Share Property)** is a new model using blockchain in connecting, sharing products like: leasing, purchasing or ownership, etc.. to enable owners to exploit the future value of the property.

**OMAREA** takes advantage of Blockchain to alter the market by digitizing transactions, cutting time and cost for users, and raising the transparency, safety for transactions.

- To increase the liquidity and encourage the traditional real estate market to develop and overcome barriers of delayed transactions, legal formalities, and the like.
- There's no requirement for high or low level of initial capital.
- There's no currency or regional limits.
- It creates a chance for traditional real estate market to raise fund from all around the world.
- It becomes easy for people to approach and perform transactions with each other without an intermediary.
- It helps encode real estate properties into tokens which are easier for trading and investing.

**OMAREA** exploits the future value of real estate properties to their fullest.

A smart digital service to connect global consumers

- **OMAIN (OMA INTELLIGENCE)** is an AI developing project which assists in consulting and connecting global consumers via an application.
- **OMAIN** is installed on mobile and digital devices.
- **OMAIN** - a solution for consumers - cashback from your own purchase
- **OMAIN** - a smart investment solution using digital applications
- **OMAIN** - a smart solution to deal with ID cards / passports

**OMAIN** - a smart virtual assistant

# PLAN & ROADMAP

## PLAN

### PHASE 2 2021-2023

Develop the digital business ecosystem and start to launch applications

Develop digital communities and smart cities

### PHASE 3 2023-2030

### PHASE 4 2030-2050

Develop an ideal living environment for global citizens

Kick-off **OMANEE** on a global scale and develop the technology foundation

### PHASE 1 2018-2020

#### Key Success:

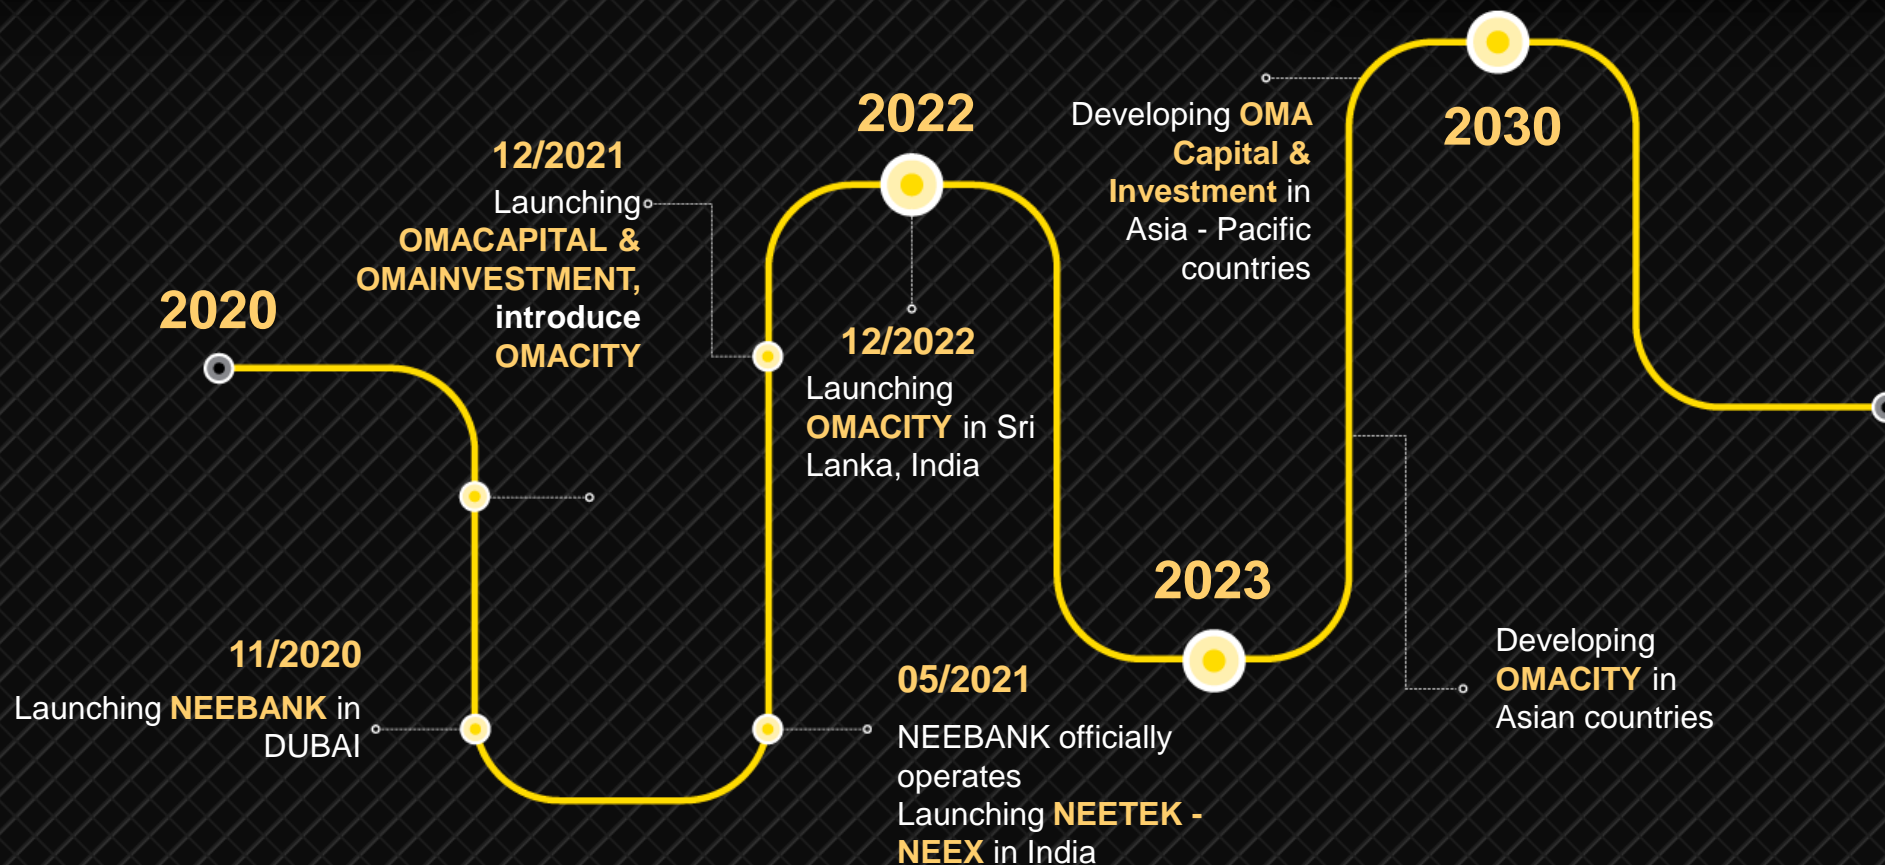

- ❖ Blockchain & Sharing Economy.
- ❖ Incorporate technology foundations and create P2P (Sharing economy) - community linking apps.
